Summary

Aspiring computer science professional with a strong foundation in STEM and hands-on experience in data accuracy as an inventory scanner at Wayne Farms. Passionate about problem-solving, innovation, and applying technology to improve real-world processes. Developed prototypes in high school, sparking a commitment to pursue computer science as a career path.

Education

Bachelor of Science: Computer Science Alabama A&M University	Expected in December 2027 Normal, AL
Associate of Science: General Studies (Focus: Computer Science) Wallace Community College	May 2025 Dothan, Alabama
Some College (No Degree): Business Management Howard University	August 2022 Washington DC

Work History

Wayne Sanders Farm <i>Inventory Scanner/Computer Operator</i>	May 2023 - October 2024
Scanned and tracked high-volume inventory weekly to maintain accurate records and support on-time shipments to major clients (ex: Chick-fil-A, Zaxby's) while meeting strict accuracy and deadline requirements.	
Capitol Hill Club <i>Guest Services Coordinator</i>	January 2023 - May 2023
Supported guest needs in a high-end, fast-paced dining environment while Congress was in session by maintaining professionalism, accuracy, and strong communication.	
ScreenTech <i>Graphic Design Intern</i>	May 2021 - July 2021
Created visual designs for marketing materials and social media campaigns.
